[HiTekno.com] Read also: How to download Instagram videos on Windows, Android and iOS. Learn more: How to download Instagram videos without other apps. Download Instagram Videos Without Apk (Android, iPhone, Notebook) - There are so many apps on offer to download Instagram videos, both the PlayStore for Android store and the iPhone App Store. But if you download Instagram videos, you do occasionally, not too often, feel less worth it if you need to install additional apps to do so. Well, that's PakarDokumen.com provide a solution with this post. That is, how to download Instagram videos Without Apk. The tutorials that ExpenDoctors will explain apply to Android, iPhone and PC. There are 2 ways where the first way can be done on Android, iPhone and PC. While the second way you can do on a laptop / PC. Method 1: Download Instagram Videos Without Apk (for Android, iPhone and PC) To download Instagram without the need for other apps, we can do this through the website/website Instagram downloader. That's why they only need a browser. Where this browser has certainly become a mandatory application for smartphone android or iPhone. Also mandatory application for laptop / PC. The essence of this first method is to download IG videos via Instagram video downloader site. For steps, check out the tutorial below... 1. Open the Instagram app. Because we will download videos from Instagram, yes, of course we are opening the Instagram app, not FB, Twitter or youtube... hehehe 2. Enter IG Video Download. After opening the IG app, whether it is on Android PHONE, iPhone or Laptop, select Instagram video (which you download). 3. Take Instagram Video Link, which you download. After determining the IG video that you will download, click on the 3 point icon in the upper right corner of the pop-up video and click copy link. Let it be easier, below the picture. If you are using a smartphone (Android or iPhone), look at the picture below... For those of you who open Instagram on a laptop, see the picture below... 4. Go to Instagram video page downloader in browser. Next step, open the browser on your phone or laptop. For free browsers, you can use Safari, Chrome, Mozilla Firefox or other browsers. Through the browser visit one of the Instagram downloader sites via the link below: You can also search for Instagram downloader pages yourself, googling using the Instagram video downloader keyword. After opening one of the Instagram downloader pages, paste the Instagram video link that you copied in step 3 before, on the download box available on the site. Then click download and download Video appears, click on download this video. See the image below (I use downloadgram.com) How 2: Download Instagram Videos without an application on your laptop / PC. If the previous tutorial can be used on HP or laptop, tutorial this time specifically for those of you who use a laptop / computer. This applies to laptops/computers with any operating system, whether it is Windows, Linux or Mac. The advantage of this method is that there is no need to help Instagram downloader site. All you need is a browser. That's Google Chrome. The whole point of this second method is that you copy the HTML code of the IG video and then paste it into the browser bookmarks. Then just download the 4 steps to download IG videos this way and just follow the steps below... First, open Instagram in Google Chrome. Open Instagram in this Chrome browser. Next login to Instagram account. Secondly, enter the IG Video you want to download. Click on the IG video you want to download so that the display becomes full. Right click on the Video. Press Ctrl + F keys on the laptop keyboard (at the same time), the HTML code appears to search column. After pressing ctrl + F keys, then a column appears. In the search box, search for the video code by typing video/mp4. The yellow HTML code appears after meeting the HTML code of the video. Delete the video text/mp4 in the search box. Then click on the right on the https:// until the full HTML code of the video appears, as below. Click click > Click Copy. When copying the entire code is copied, the entire HTML code is blue between 2 quotation marks https:... To... f634. Open a new tab in Chrome. Insert HTML code into your browser bookmark and ENTER. Click on the three-tab icon in the lower right corner. Click on download. Here are two ways you can download IG videos without the need for additional applications. Either through a desktop computer or smartphone. To have good practice... Instagram logo, yes, I'm sorry.
